

步驟1: 組裝”前鏡頭支架組”

料件說明

- 1 先將原本安裝在前鏡頭的蝴蝶支架拆卸。

2 暫時將鏡頭環取下。沿著鏡頭環的凹槽貼上止滑矽膠條再撕開離型紙。再將鏡頭環裝回去。

步驟 2: 安裝

“前鏡頭支架組”建議安裝於摩托車**右方**後照鏡。

1 先取下後照鏡。將“前鏡頭支架組”的支架 **B** 點安裝到後照鏡上。

1. Pre-Assemble

Parts description

- 1 Disassemble the original mount from the camera.

2 Temporarily take out the metal ring and put the Anti-slippery Sticker on the gutter of the camera. Then, peel off the transparent film. Put on metal ring once again.

Type1

Type2

Type3

3 Insert **A** of the Mount in the middle of metal ring, and confirm the white mark on camera is always positioned up. This is to make sure the capture image is in correct angle. Use screw driver to fix to the Mount. (White mark differs from models.)

Type2

Type3

2. Install

It's highly recommended to install the Rear-view-mirror Mount on the right side of the motorcycle.

- 1 Take out the rear-view-mirror from the motorcycle.
Insert **B** of the Mount into the bar of rear-view-mirror.

Type1

Type2

Type3

- 2 Put the whole set of rear-view-mirror back to motorcycle and fix it steadily.
